

Principal's message (2017 - 2018)

Welcome to St. Raphael Co. Ed School for the scholastic year 2017-2018. Each new academic year brings with it new targets to be achieved and new dreams to be realized. These arise from our own inner compulsion to make this institution incomparable. We do this by constant introspection and critical review so that we provide super quality education to our students and to accompany them in their journey to achieve such perfection as is humanely possible.

This year we commence a unique program, in collaboration with the Bangalore based Institute of Language Management, aimed at improving the proficiency and fluency of our students in the English Language, more specifically in its communicative aspect.

Our continuing adaptation of new and better teaching methodologies would see introduction of more digital learning tools. An important part of this initiative is the setting up of the Digital Math's lab, with its unique features. This facility would be available right from the first standard.

In terms of infrastructure, a new building is being commissioned and an auditorium has been constructed.

Education is a joint venture between school and home. As we work with our students to help them learn about the world around them through the prescribed curriculum, we very much appreciate the support that parents give their children at home. The foundation of a successful school is the cooperation between the students, staff, parents and community.

With a visionary management supporting our efforts and a distinguished faculty, we are set to build on our past successes and scale greater heights in the years ahead. As someone rightly said "In the right formation, the flying power of many wings can achieve twice the distance of any bird flying alone."

We seek God's blessings and guidance in every step of our way in the years ahead.

I wish you all the very best. Remember we are on this journey together... united in hope.

Sr. Jancy

Principal
